

RG eIDAS

A Europe without electronic barriers

The best way is electronic
Imagine that a Spanish company wants to bid for a public tender in Italy.

Without eIDAS

With eIDAS

Risk of accessing an uncertified website. Impossibility of authenticating identity of the Spanish company. What if it were false?

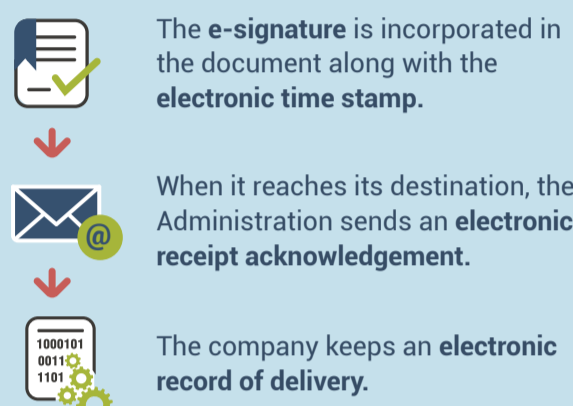

You access a secure web with certified authentication. The company guarantees your identity electronically.

Physical exchange of documents begins... And so do the problems!

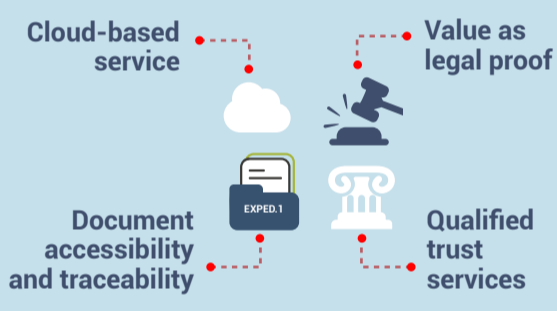

The entire process takes place remotely.

PHYSICAL ARCHIVING

ELECTRONIC ARCHIVING

TIME **+** TIME
