# KEY TECHNOLOGICAL SOLUTIONS

## EDICOM Platform

### ELECTRONIC DATA INTERCHANGE

We develop solutions for the exchange of electronic business documents (orders, despatch advices, delivery notes... etc.), tailored to each company's needs.

- ▶ **EDI Web:** Low document volume management through a simple web interface.
- ▶ **Integrated EDI:** High document volume management automatization, all through the client's own in-house management system.

### DATA SYNCHRONIZATION

Product synchronisation solution between companies linked to the GDSN or our network .

- ▶ **GDSN connectivity:** GS1-certified Data Pool to connect to electronic catalogues running on GDSN (Global Data Synchronization Network).
- ▶ **Private connectivity:** Private connectivity through the EDICOM network to manage customized product data synchronization processes, including multimedia content updating (product photos, videos, instruction sheets, etc.).

### ELECTRONIC INVOICING

International platform for creating, sending and receiving electronic invoices constantly kept up to date with technical and legal billing requirements established by tax authorities in each country.

- ▶ EDICOM is a **Certification Authority** in Europe, Mexico and Colombia, providing businesses with secure, legally valid electronic identification mechanisms.

### ADVANCED SERVICES

EDICOM provides advanced management services for 100% outsourced administration and maintenance of B2B client solutions.

- ▶ **Global Outsourcing:** Outsourcing tasks associated to the maintenance of your data integration solution.
- ▶ **Onboarding Project:** Incorporation management of trading partner to your B2B communications community.
- ▶ **Integral Partner Management:** Permanent and ongoing support for all of your trading partners.
